Community Contact Cases

A Community Contact is a report from RAs that details interactions with students. These interactions are ones where the RA felt it was concerning, but there are not any conduct violations.

Total Reports	460
Total Students Involved	1094
Individual Students	894

Medical Amnesty Program

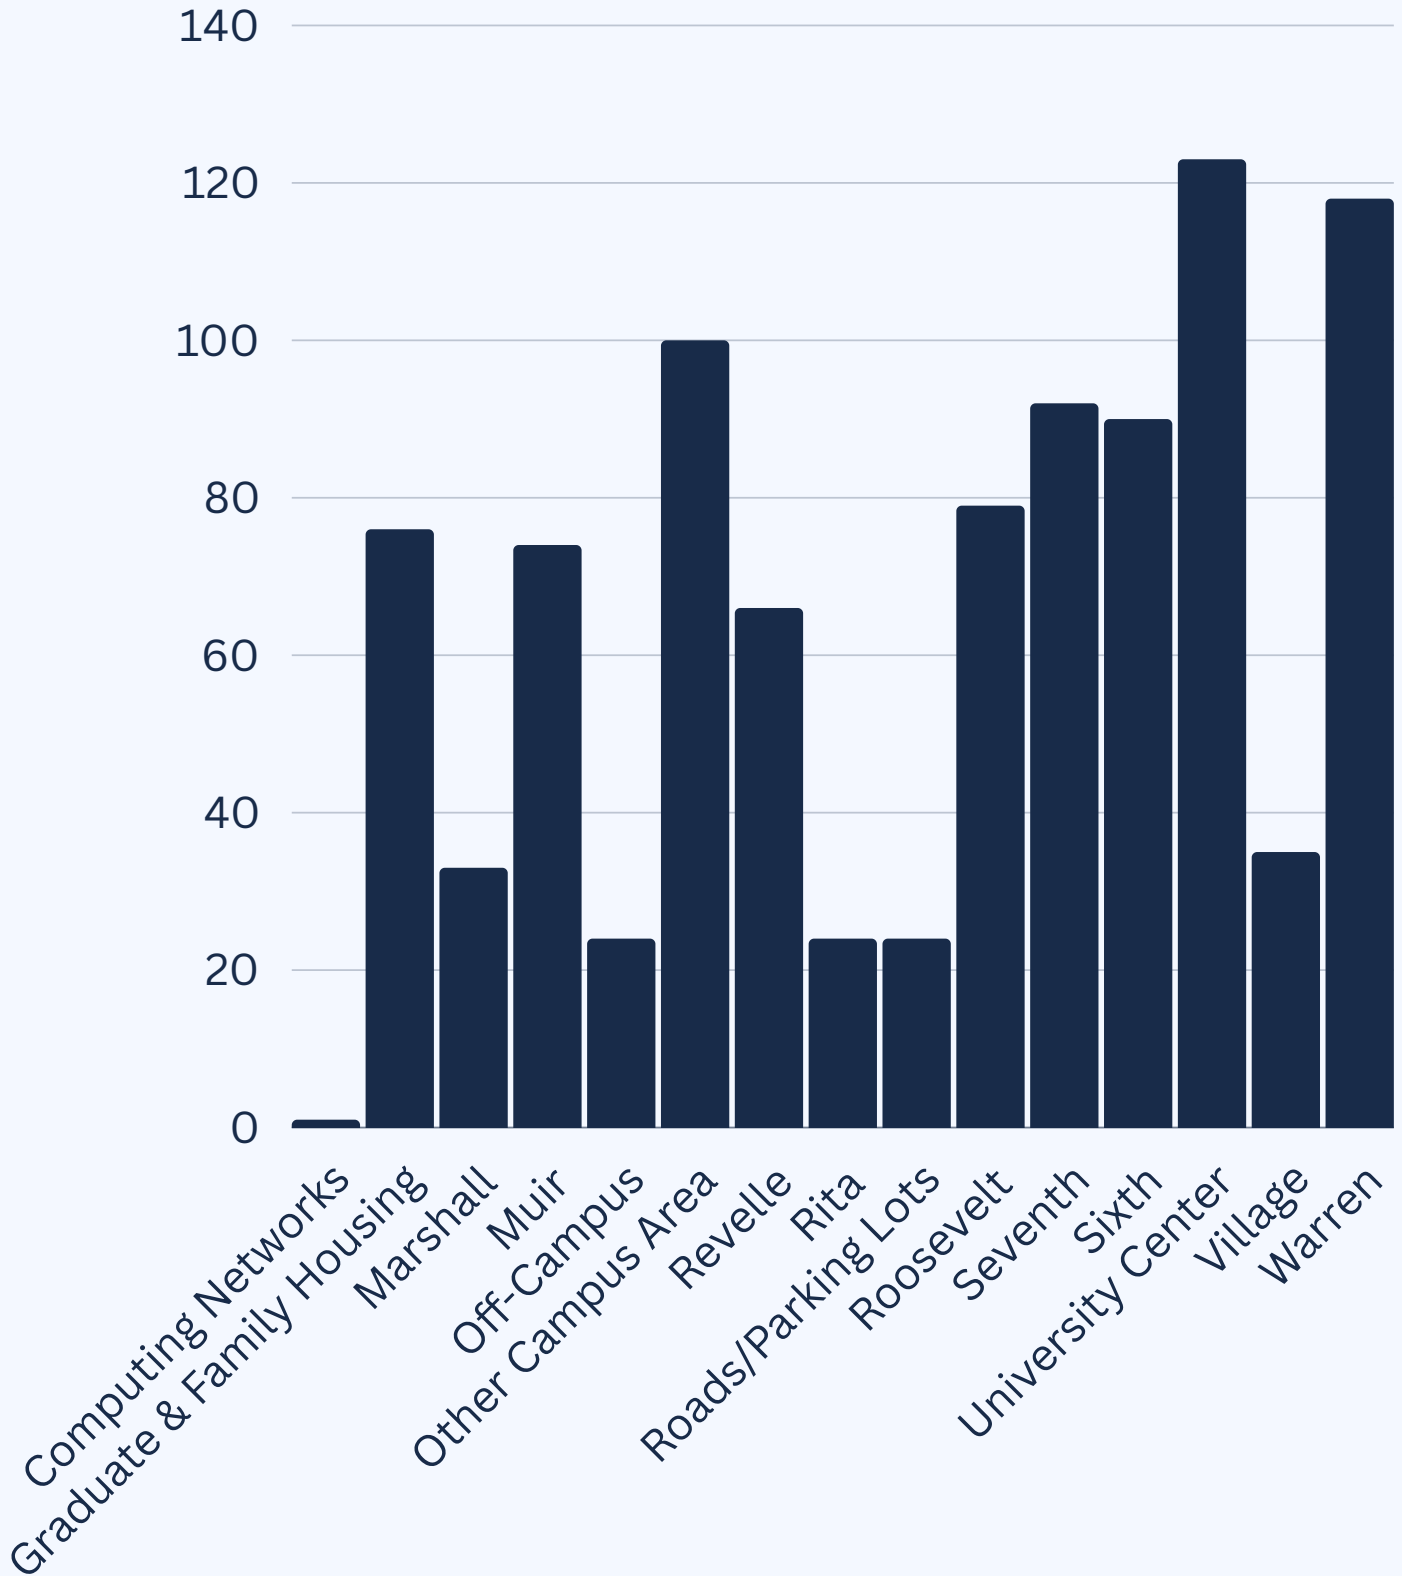

The purpose of the Medical Amnesty Program (MAP) is to reduce the barriers to seeking medical assistance for emergencies involving alcohol, controlled substances, and communicable diseases with public health implications, while promoting community well-being and safety.

SAGE processes all incident reports submitted to our office. If we see that a student sought out help in the event of a medical emergency for themselves, or someone else, and meets the other requirements, we will process the report as a MAP case.

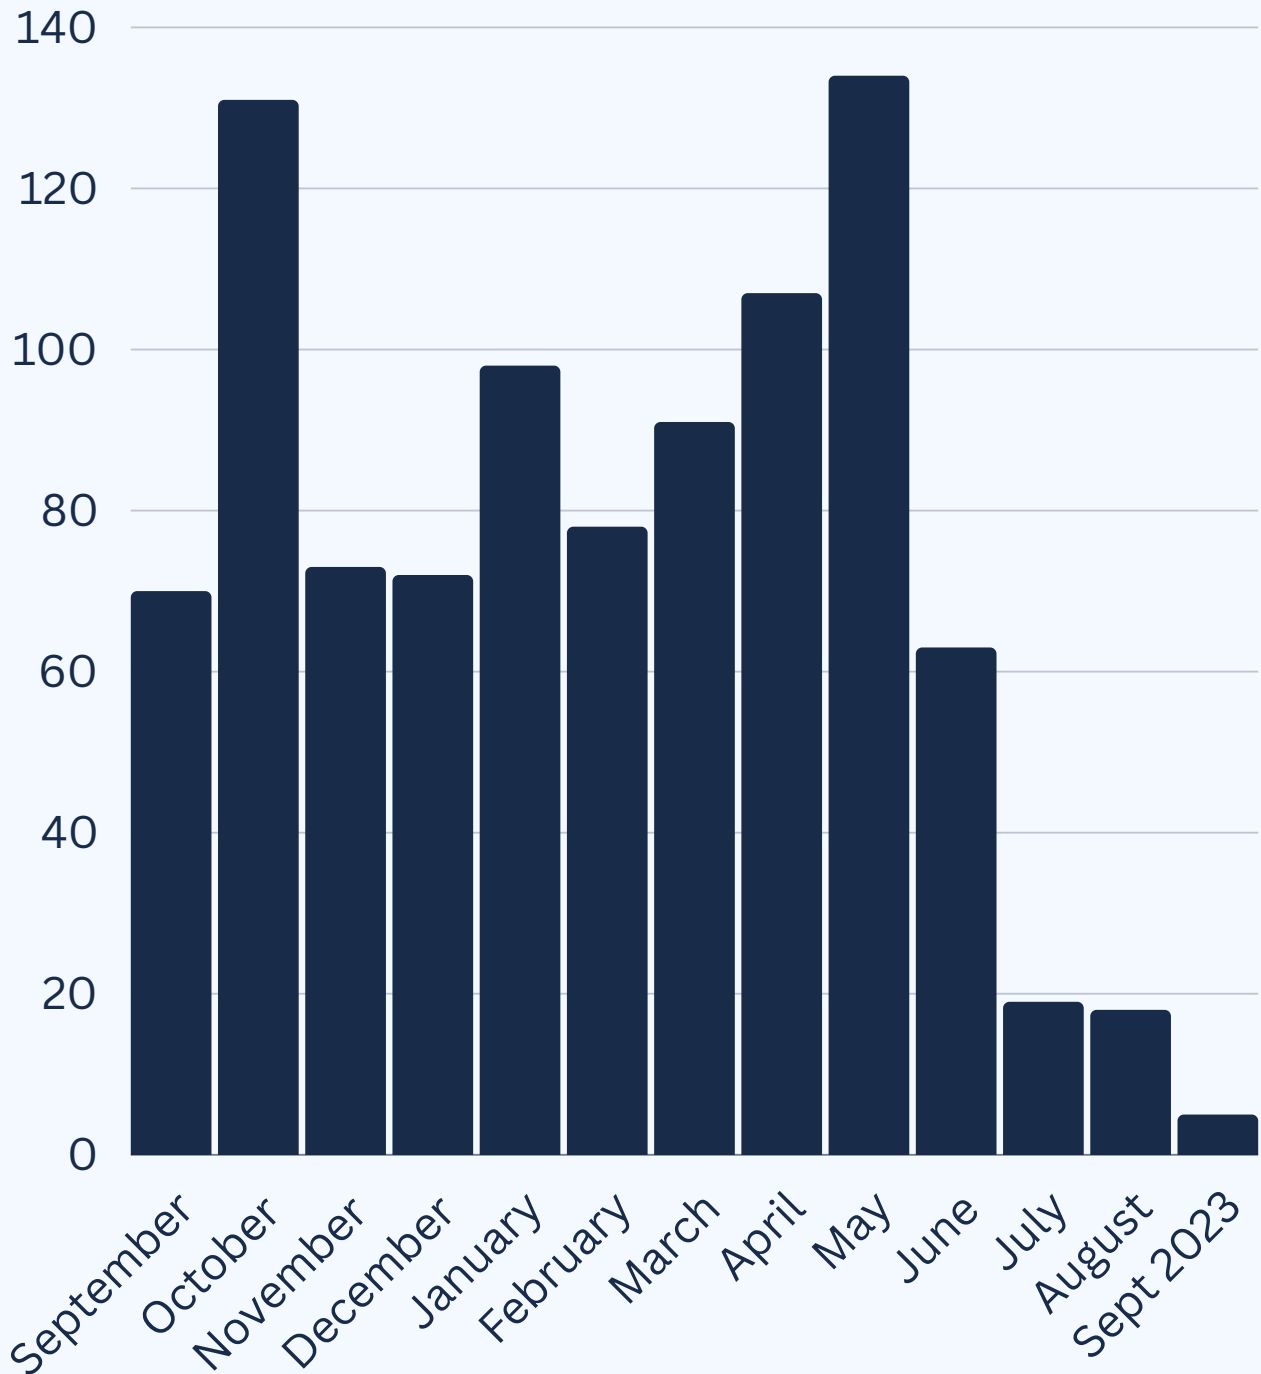

In 2022-23 we had 35 cases eligible for MAP!

Student Conduct Process Survey

When students are sent their Administrative Resolution Summary letter after meeting with their student conduct officer, a link is included to a brief survey that asks questions about their experience throughout the conduct process. The survey includes 9 Likert Scale questions, as well as, two free answer questions. Below are some of the answers received.
